## Longest War

THESE CHINESE SOLDIERS holding a height above a river have been fighting the war against the Axis longer than any other United Nations forces. For 11 years, since the invasion of Manchuria on Sept. 18, 1931, they have stubbornly resisted Japan. The front where they are now fighting here is in Suiyuan Province in Inner Mongolia. In spite of 11 years' fighting, their morale is still high.

## LEGION & UNIT TO SPONSOR MIDNIGHT SHOW

BENEFIT EVENT  
AT NILES THEATRE  
SATURDAY, OCTOBER 24

The Washington Township Post of the American Legion and its Women's Auxiliary voted at their joint installation meeting in the auditorium of the Memorial Building last Wednesday night to sponsor the state-wide series of benefit midnight shows to be given by about 300 California Theatres after midnight on Saturday, October 24.

"Bill" Helm, manager of the Niles Theatre has generously offered the use of his theatre without charge for the midnight event. Walter Waynflete presented the project at the joint meeting and Commander Sam Scott named Waynflete chairman of this special committee, assisted by Comrades Frank Veit and A. M. Hallstrom.

The new Auxiliary President, Mrs. Ellen Mohn appointed Mrs. Nell Myers chairman, assisted by Mrs. Manuel Swartz and Mrs. Rose Vieux to represent the Auxiliary on this special committee of arrangements, which met jointly Monday night in the Memorial Building.

Approximately 300 California theatres, from the Oregon line to San Diego, will hold special midnight shows on Saturday night, October 24.

Sponsors of the large program, the first of its kind ever attempted, will be the American Legion, Fox-West Coast Theatres, with 200 houses, and the Independent Theaters with more than 100 vaudeville and motion picture establishments.

All proceeds will go to the California Legion for continuation of its Rehabilitation and Child Welfare programs. Legion and theatre executives in charge of the program estimate that a fund of between \$150,000 and \$200,000 will be realized from the 300 midnight shows.

— Posts Retain Half  
Half of the proceeds will be turned over to the state's 586 Legion Posts for their rehabilitation and child welfare work and the remaining half will go to the Legion's Special Fund Foundation. This fund was established three years ago by Charles P. Skouras, President of Fox-West Coast Theatres. The sum of \$20,000 was turned over by Skouras from collections made in his and independent theaters. All but \$1000 has been expended by the Legion committee of which Past National Commander John R. Quinn of Los Angeles is chairman and Past National Commander Frank N. Belgrano Jr. of San Francisco is vice-chairman.

Heretofore, these special Legion

JOHN FERRANTE, a graduate of the Washington Union High School, will be inducted into the Naval Reserve on Friday.

Private JOHN MARTIN visited over the weekend with his father Bert Martin of Newark.

## SUPERVISORS SEEK BOOST IN SALARIES; EFFECTIVE LATER

An ordinance which would increase their salaries from \$350 to \$500 monthly was adopted by the Board of Supervisors last Tuesday, but voters will have an opportunity to vote on the proposal at the November 3rd general election.

Under the ordinance, none of the incumbents of the board would profit by the increase unless they are reelected at the expiration of present terms or at the expiration of new terms confirmed at the August primary.

Elected at the August primary to new four-year terms which begin January 1, 1943, Chairman George Janssen and Harry Bartell would not be eligible for the raise until they are reelected in 1947. Supervisors George P. Hellwig, Thomas Caldecott and Clifford Wixon would not receive the \$500 checks unless and until they were reelected two years hence.

The present salary of \$350 became effective by a charter provision in 1926. At that time, the supervisors point out, the board met only twice weekly. Now, in addition to the regular twice weekly sessions, the board holds two additional committee meetings which make the post of supervisor virtually a full-time job, it was declared.

funds have been expended almost entirely for care of World War Veterans and their children at least half of the new fund derived from the 300 midnight shows on October 24 will be set aside for rehabilitation of men and women now serving the nation in the armed forces and for their children.

"The Legion has a background of 25 years of experience in rehabilitation and child welfare work," said California State Commander Leon E. Happell yesterday, in announcing details of the midnight show program.

— For Worthy Cause

"In California, alone, we have 500 Legion and Legion Auxiliary members continually in the field, working in the hospitals, in private homes and elsewhere, solely on rehabilitation work. They know this line of specialized work better than any group of persons in the nation. I am sure the general public knows this and will therefore, support the Legion's 300 midnight shows on Saturday night, October 24. This support, I am sure, will be general throughout the state when the public realizes that at least half of the funds derived will be used for the care of present service men and women and their children."

"We are not soliciting funds for this worthy cause," said Commander Happell, "Our program is to give the public full value in these special midnight shows. The latest run motion pictures will be shown, augmented by vaudeville and Legion units."

Ticket sales will be handled through the individual Legion posts and each community will be advised well in advance of all details of the shows

## MOTHERS VOLUNTEER

IRVINGTON — In the absence of paid employees or WPA workers the women of the Irvington PTA are going to voluntarily do the work at the Irvington School cafeteria without compensation this fall and winter. Mrs. Bessie Olave will manage the work, assisted by several of the mothers. The board of trustees elected Raymond Cunha as school custodian and bus driver.

## EIKE SAYS NILES CAN HANDLE ITS PARKING SITUATION

CHAMBER BIDS  
GOODBYE TO  
CAPTAIN GRAU

Eleven members were present when Dr. T. C. Wilson called the Monday luncheon meeting of the Niles Chamber of Commerce to order with Capt. Louis Eike of the California Highway Patrol as a guest.

The chairman bade formal farewell to the second of its members, Dr. E. C. Grau, who entered service on Wednesday. Vernon Ellsworth was the first to go, early this year. Captain Grau reports for duty with the Medical Corps at Fort Douglas, Utah, this week. He left by train the middle of the week for Army duty.

Considerable discussion was then had on the parking situation in Niles, an attempt to rectify which has resulted in many Township drivers receiving citations for illegal parking and being assessed small fines in the Niles Justice court.

Captain Eike said his office had to act on complaints, but that it was not his object to harry local citizens. State law requires parallel parking in unincorporated districts, but he did not plan to enforce it in Niles, where diagonal parking has been practiced on most of its business streets for years.

— No Overnight Parking

He pointed out that leaving cars standing overnight on public streets anywhere, city or country, was always unlawful. An owner can leave his car out overnight on his own driveway if he wishes, but not on the street outside his home.

Secretary A. J. Petsche reported he had had word from the legal department of the State Automobile association that they could not white-stripe the broken sidewalk area between the El Pajaro Beauty Shop and Oliver's Garage without continuing the stripe clear down that side of the street past Solons, which would make the parking area by the Southern Pacific freight depot out-of-bounds for parking.

This would adversely affect the Niles Theatre whose patrons park in large numbers by the freight depot. The state association wished to be relieved of further action in the matter and suggested Niles citizens determine which shall be proper parking areas.

...Parking within 15 feet of fire hydrants, which are all signed, and blocking driveways like the one behind Marble's Service Station is always illegal and should be reported at once.

The deluge of citations which have been issued in Niles during the past month will stop, Captain Eike said, unless businessmen resume making complaints to his department. He suggested that Niles decide itself which are no parking areas and post No Parking signs on such places for the protection of the motoring public.

He also said the new 35 mile an hour speed limit which became effective today will be strictly enforced as it is nation-wide and mandatory on his department.

The Niles Rotary club and the Hayward Rotary club held their annual inter-city luncheon meeting this Thursday noon at the Masonic Home. Last week Milton Dohner of Hayward showed moving pictures he took on a former trip to India.

## NILES SCRAP PILE HITS ONE-SIXTH OF NATIONS AVERAGE

LOCAL RESIDENTS MUST  
PRODUCE FIVE TIMES  
MORE SCRAP METAL!

W. A. Baldwin of the Niles rural district gets the gold star for bringing in the first donation of scrap metal to the Victory Scrap Metal pile situated on the lot in the rear of The Township Register Building.

He says he went through his premises a few days ago, expected to find only about 10 pounds of scrap. When he got through accumulating unwanted metal articles he found he had 200 pounds. "Go thou and do likewise" he suggests to his neighbors. Housewives can help by giving up worn kitchen utensils or other metal objects which have outgrown their usefulness.

The girls of the Niles Grammar school are collecting old keys, of which every household has an accumulation.

Everybody has to get into this scrap to scrap worn out metal articles, which will be picked up on Sunday, October 25, for the benefit of the Toyon Branch of the Children's Hospital.

In three drives the Niles School district has produced 21 1/2 tons of metal. As 2,500 persons signed up for sugar ration books in the Niles School District the 43,000 pounds of metal already turned in to the steel mill represents an average of only 17 pounds per person. The government has set a national goal of better than 100 pounds per person and this figure has already been reached and surpassed by many communities.

We Niles people will have to get in and scratch up the other 83 pounds per person to produce five times as much scrap metal as has already been contributed to The Cause.

There are still old automobiles, worn out tractors and other farm tools, household goods, rusty nails, horseshoes, etc. which can be turned in to make munitions for Uncle Sam to use against the enemy.

If you have only a small quantity bring it in at your leisure and dump it in the rear of this office. If you have a large object list it with the Niles Salvage Committee, phone Niles 4442, and it will be picked up on October 25, or before if another group decides to get in and dig up more metal before that date.

These words from Galatians comprise the Golden Text to be used Sunday, October 4, in all Churches of Christ, Scientist. The subject of the Lesson-Sermon will be "Unreality."

Included among the Scriptural selections will be: "For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof; but he that doeth the will of God abideth for ever." (I John 2: 16, 17).

The following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Now is the time for so-called material pains and material pleasures to pass away, for both are unreal, because impossible in Science. . . Look away from the body into Truth and Love the Principle of all happiness, harmony, and immortality." (pp. 39, 261).

## Fight! Work! and Save!

A War Message on WAR BONDS

from the President of the United States

"... The American people know that if we would raise the billions which we now need to pay for the war and at the same time prevent a disastrous rise in the cost of living, we shall have to double and more than double the scale of our savings.

"Every dime and dollar not vitally needed for absolute necessities should go into WAR BONDS and STAMPS to add to the striking power of our armed forces.

"If these purchases are to have a material effect in restraining price increases they must be made out of current income.

"In almost every individual case they should be big enough to mean rigid self-denial, a substantial reduction for most of us in the scale of expenditure that is comfortable and easy for us.

"We cannot fight this war, we cannot exert our maximum effort, on a spend-as-usual basis.

"We cannot have all we want if our soldiers and sailors are to have all they need."

..... Franklin D. Roosevelt

**RED CROSS TO  
CONDUCT ANNUAL  
DRIVE IN MARCH**

"Nothing distracts an army so quickly as no news, bad news, or worry". So said Brig. General Lewis B. Hershey, director of the selective Service recently, and illustrated in a few words the purpose behind the Red Cross Service to our men in the armed forces of the United States. It includes just about everything you would like for your boy, or any boy, in the Army Navy, or Marine Corps. Money to get home, a job for a member of the family, aid in solving personal problems, information on government allowances, vocational rehabilitation.

These are some of the duties of the Military and Naval Welfare Service that operates in this area as well as in all parts of the world. They know that a soldier weighed with worry is a poor soldier. To keep the collective mind and spirit of the armed forces as free from care as possible, the service is equipped to assist in solving any one of the great variety of problems that may and do arise. For instance: Serious illness in a Marine's family required his return home. The Red Cross advanced the cost of the trip. A soldier's mother had to have a serious operation unexpectedly, and the family lacked the funds. The Red Cross Service took care of it.

Another man lost contact with his parents prior to his induction. The Red Cross Service found them. A sailor's father lost his job. The Red Cross got him another, and a better one. A soldier permanently disabled for further service was taught a new trade suited to his condition. Probably the most important service is the loaning of money to soldiers called home in cases of need for health furloughs, and for incidents such as late pay checks. Letters from parents anxious to locate their sons and vice versa in addition to the job of just counseling and aiding in solving personal problems.

In cases where the son has made the supreme sacrifice, the duty of calling at the home and extending Red Cross sympathy and offering its facilities to the family in collecting back pay and insurance is an important service rendered. All of these services are handled confidentially and without embarrassment to the man or his family.

It requires a large amount of money, to render the service in our military camps and on many fronts throughout the world, in addition to the many thousands of volunteer workers, serving without pay, in the United States. In the past the Red Cross has conducted its annual Roll Call during the month of November and last year appealed for an Emergency War Chest during March. It has been decided to combine both calls in one drive to be conducted next March, according to F. T. Dusterberry Chairman of Washington Township Chapter and member of Executive Committee of the Oakland Chapter of American Red Cross.

**HALLOWEEN PARTY**

The Business and Professional Women of Washington Township plan to enjoy a costume Halloween party Tuesday, October 13 at the P. G. & E. clubhouse near Newark. Jack Rees, vice-principal of Washington High school addressed the September meeting on India following their monthly dinner meeting at the International Kitchen.

Your state has a War Bond quota. Remember that every time you open your pocketbook or write a check put 10% of your family's income into War Bonds and Stamps.

There is a man in our town —  
We thought was worldly wise;  
He said no further need we search  
For airplanes in the skies.

"From whence could alien aircraft come?  
Jap carriers all were sunk."  
(It sounded AWFUL good to me...  
Although I knew 'twas bunk.)

He said we'd done a good job,  
"Could rest now on our Laurels"  
No more to fear the Rising Sun...  
Nor need to bolster morals!  
(moral support)

Ah, what a comfort and relief,  
To ease the hearts of men;  
The Air Observers standing guard  
From Dawn to 4 — G. M.

Then... Tojo got the message,  
It was such a funny boast;  
So a sub brought in an airplane —  
To set fires along our Coast.

Now wake up W. W.  
It was just a rosy dream;  
With Nations destroying each other,  
"And things are not what they seem."

So gird your loins for battle,  
And fight on... yet awhile;  
The enemy is cruel and strong,  
Behind that subtle smile.

We hope e'er long a story  
By Ye Editor and Friend  
Will bring us news of Victory,  
When this vicious war will end.

Now I fear when W. W....

### NO ORDERS, NO FIGHTING

Assistant Secretary of the Navy Ralph Bard last week told a meeting of shipyard workers in the east that "we are losing this war" and the public should face that fact, instead of "whistling in a graveyard to keep from facing reality."

If we are losing the war in this tenth month, it is not the shipyard workers' fault, nor the public's fault, Mr. Secretary.

The public can't fight the war. Nor can our soldiers and sailors and airmen fight the war UNTIL they receive orders from the admirals and generals and the President, where and when and how to fight it.

Our forces are now scattered over 31 fronts, only six of which are active today. Wherever we meet the enemies our men are giving fine accounts of themselves.

If we are losing the war as you say, Mr. Secretary, it is because the fighting orders have not issued from the responsible heads. That is not the fault of the shipyard workers, nor of the American public as a whole. Nor of the soldiers and sailors and airmen who are only too anxious to mix it and get it over with.

Place your complaint in the proper quarters, Mr. Bard and let the public go on "whistling in a graveyard" until they have some smashing victories to crow about.

Meantime another great Anglo-British convoy has landed vast reinforcements in Ireland and the British radio last week urged coastal Frenchmen to move inland, because the long-awaited second coming of American troops in France is a matter of early prospect.

The men in Washington who are really doing the work of strategy planning have no time to utter pointless public addresses. They are planning the ACTION and it is action which we all want. So do the British and the Russians.

It took U.S. 14 months in the last war, from April 1917 to July 1918 before our men really got into action at Soissons, St. Mihiel, Chateau Thierry, the Argonne and Belleau Woods.

This is only our 10th. month of this war — and time still stretches invitingly on.

### OUR OLD CANNON

The two inelegant old cannons are supposed to adorn (?) the exterior of the Niles Firehouse may soon be converted into new weapons with which to fight the enemy.

Mrs. James R. Whipple and Mrs. Helen Ford, who have had a grant from the War Department covering title to these old cannons, under the act of May 26, 1928, have written the ordinance department for permission to turn in these ugly weapons, (weight 1900 pounds each) during the Toyon Branch of the Childrens Hospital Victory Scrap Metal drive set for Sunday, October 25.

At the going rates now being paid for metal the Toyon Branch should realize between \$25 and \$30 proceeds when authority is given to turn in these unlovely ornaments.

### FOUR PAGE NEWSPAPERS

My neighbor Maitland Henry, publisher of The Livermore newspaper, has lost his printer and can't get another, so Maitland has rolled up his sleeves, has sat down at the keyboard of his linotype and last week produced a nice four-page newspaper: probably the first four page edition Livermoreans have seen since the depression of a decade ago.

My nearer neighbor, Leon Lester, publisher of the Pleasanton Times, who always does his own work, assisted by his capable wife, has cut out his four pages of "patent insides" printed in San Francisco and regularly produces a neat-looking four page newspaper.

These men have the advantage of the publisher of this newspaper, in that they can do their own mechanical work. Your publisher here, for the past 13 years has had enough business to be able to hire one or two regular full-time mechanics, so has never learned the mechanical end.

My present printer-operator, Brother Walt will probably receive a letter of congratulation — or sumpin! — from Uncle Sam when he turns 20 in November.

What happens after that is on the "lap of the gods." I hope they stand up — and spill me out another printer-operator!

Only time will tell, and time is ticking along quite as usual.

### COALS TO NEWCASTLE

This is third annual National Newspaper Week. As a newspaper publisher I am supposed to run a page of pictures and other blurbs telling the public how necessary newspapers are to them.

Many years ago the Santa Clara Valley prune growers got the bright idea of making people prune-conscious by having the governor of that day proclaim a certain week as prune week.

When I get prune hungry I go buy prunes, and when the public wants the news they go buy a newspaper — this one, or some other one, and nobody needs to tell them to do so. Somehow I've never held with "Eat A Prune" week, or national "Kiss Your Mother-in-Law" week, or national newspaper week, or any other week.

Guess I'm just a heretic or an old rebel, or sumpin! . . . We mortals shore do keep ourselves thrashed up most of the time all about nuthin'.

### BOTTLES FOR BONDS

GLASS MILK BOTTLES JOIN THE MINUTE MEN. Bonita Granville, RKO film player, holds the first of the new glass milk bottles on which are inscribed an appeal for War Bond purchases. The campaign is sponsored by the Treasury Department with the cooperation of the dairy industry. It is estimated more than 12 billion milk bottles are circulated yearly, each averaging more than 35 trips between dairy and consumer.

that the nazi transportation system, already overtaxed by military demands, is bogging down under the weight of tens and hundreds of thousands of bombed-out workmen and civilians who have to be taken somewhere else if they are to remain alive.

Little by little one factor, then another factor, is piling it onto the nazis to the point where their internal problems will accumulate until their summed up injuries will one day crush them: hunger, starvation, disease, unrest are all contributing factors.

And Stalingrad still stands, albeit a burning torch of terrible punishment for the Soviet as well as the invaders.

Hitler has shot his load and the Unexpected is due to occur this year, as it did in the fourth year of the last war.

### BIBLE WEEK

Throughout America beginning the second week in October, Bible Week will be observed by many organizations and millions of individuals.

To call public attention to the occasion, the artist Howard Chandler Christy has painted a picture of Uncle Sam, symbolic of the American people, kneeling in prayer on a height above flaming battlefields, and saying: "For thine is the kingdom, and the power, and the glory, forever."

In Nazi Germany, the only book that could be singled out for special attention is Mein Kampf. Rejecting the Bible, Busso Loewe, author of "Creed of the German Pagan Movement", wrote shortly before the war:

"The German people need no Bible. The Edda and Sagas, Master Ekkehart and Frederick the Great, Goethe and Schiller, Hoelderlin and Nietzsche and many other great Germans were no Christians; they believed in life, in Nature and in the power of the German soul."

The concept of Hitler placing his life story above the Bible in importance, placing the writings and deeds of German authors, soldiers and philosophers above the Book that contains the Sermon on the Mount, is not only stockingly sacrilegious to Christians but also incredibly preposterous to the non-religious man of intelligence.

Already the end of Adolph Hitler's historically brief time of terrible mischief is in sight. Another year or two, and his legions that ravage the earth will be destroyed. His sordid book, his reincarnations of pagan gods, will die with him. Like a puff of dust, he and all that he conjured into being will be gone.

The Bible, with its mystically wondrous story of the Man who never held a sword but shook the world of his time and all time with teachings that no power can destroy, will remain as long as men can read.

### OLSON NOT A TRUE DEMOCRAT

(The Ventura County News) . . . The surprisingly large vote polled by Earl Warren from registered Democrats in the primary elections can mean only one thing: Democrats do not consider Olson a true Democrat. . . .

Earl Warren's strength among the Democrats certainly can't be laughed off with the explanation that the Republicans voted and the Democrats didn't. It can be explained by the very evident fact that good dyed-in-the-wool Democrats have not lost their ability to think for themselves. . . .

Unless there is a very marked change in public sentiment before the November elections, the people who are in favor of WAR EFFORT RATHER THAN POLITICAL EFFORT are going to be sitting in the driver's seat.

### BRIGHTENING PROSPECTS

General Wavell, in charge of the British forces in India, must read The Township Register.

He told newsmen over the weekend that in his opinion no new Japanese campaigns, either against India or Siberia, need be looked for.

He said they had bitten off so much in the line of territory and peoples, and their communication lines were so badly over-extended, and the Allied chiefly the United States' sinkings of Japanese warships and merchant vessels together have combined to put Japan on a precarious spot.

They "missed the bus" entirely in the South Pacific and

our assault on the Solomons has thrown their time-table of operations so badly out of gear, Japan now resembled a prize fighter who has fought his fight and is beginning to stagger around all woozy and punch drunk . . . or words to that effect.

Common sense would point out that a little nation with very limited resources, which had been at war for more than 10 years, cannot keep up the pace of conquests it executed last year.

Japan's position now is entirely vulnerable and the Chinese are doing to the Japs in China what the Russians are doing to the Huns at Stalingrad. The belief is now held in competent quarters that Hitler has "shot his load" and Stalingrad is not going to fall to the enemy. Those Russians can fight!

All of which makes very cheerful reading, particularly with the prospect of a second front being opened in Western Europe.

Laval is on the spot at last and on Monday he was considering moving his "government" to North Africa, taking the remnants of the French fleet to join the quarter of a million French soldiers in Tunisia. If his vision clears he may throw in their lot with the British and Americans in Egypt and together finish off that old fox, Rommel.

These are straws in the wind, portending a change in the fortunes of war in favor of the United Nations. Perhaps the gods of war are tiring of all the bloodshed and suffering?

More good news appears in the announcement Sunday that American insurance rates on outgoing cargoes has been reduced, showing we are licking the submarine menace. Then too, the launching of ships is now at the rate of two a day, and soon will be three a day, which will more than compensate for our submarine losses. In fact our launchings of cargo ships since December 7 has now passed the total number of ships sunk. The latter figure stood at 482 on Monday.

All in all, to quote the immortal Tennyson: "Keep inflexible, United Nations, and fortune will change in your favor."

Ain't the United Nations are the "irresistible force" and the enemies are the supposed "immovable bodies." In truth, there is such a thing as an irresistible force — the power of God, for instance; but there is no such thing as an immovable body. Everything in existence is in a continual state of motion, whether we can see it or not: this planet we call the earth; the sun, moon and stars. . . by contrast with which how puny are the grains of sand on the sea of time which we call nations and peoples!

The Almighty could fold it all up and cast off the earth and the nations like the soiled garments they are. . . though we hope He doesn't. Once the foe is vanquished, reason tempered with experience and common sense blessed with charity can "clean up the mess."

And we hope that's the way it will be. New offensive action by the United States is ominously quiet just at present. We should hear soon of some startling and new blow struck soon at the enemy, where he lives, by U.S.

Truth can never be defeated, and truth is on Our Side. Praise be!

### "GO SLOW"!

The old warning for people to "go slow" will have teeth in it starting today.

Rubber Czar Jeffers and the Office of Defense Transportation have decreed that motorists who are arrested for driving faster than 35 miles an hour face a prison term of TWO YEARS and a fine of \$10,000.

And that's that. Anyone who speeds now will put himself out of business and put his family on the rocks. To save precious rubber the government has at last got tough, and that's a good thing, because this is war.

Is there any punishment in being made to drive under 35 miles per hour, just so as everyone has to drive at the same safe speed? None at all. It is a pleasure to drive slowly and relax and enjoy the scenery.

A beneficial byproduct of this law will be a reduction in the numbers of accidents. Cars driven at 35 miles per hour are entirely under control. Speeding up to 40 or 45 to pass another car going in your direction at the lawful speed of 35 miles will be OUT.

Which will put an end to the deadly practice of cutting in. Think back a year to Sundays when all cars on main highways were travelling at 55 and up. Thunderbolts on rubber, they zipped past you in the wrong lane at 70 or better on crowded highways. Your life was in your hands every moment.

One beneficial repercussion of this war is the return to sanity in the driving of our private cars. With fewer cars on the road . . . the August gas tax was off 15 percent from August of last year . . . our main highways will cease to be the death traps they were up to six months ago. Courtesy can be exercised and motoring becomes again the expensive luxury it used to be before our modern high-speed cars made fast driving all but unavoidable.

"God moves in mysterious ways . . ." and this war is doing wonders in holding down the unions, in dispensing with bums and other unAmericanisms; in making people find their happiness at home; in restoring the spirit of patriotism, service and sacrifice: all of which are Christian virtues, too long neglected in the helterskelter of our former selfish civilian lives.

Hold it at 35, Bud — or else!

### "UNTIL WE WIN . . ."

Some other newspaper man has brightly suggested that the public scrap the bromide phrase which the British revived from the last war, "for the duration" and school ourselves to say "Until we win" or "until we win the war."

For the duration "expresses a passive attitude of helplessness and resignation."

"Until we win the war war" is a positive, up-and-coming way of covering a present situation which can only be overcome by aggressive ACTION.

And while you are re-tooling your mind, pray junk the word "emergency" as connected with this war. This war is no emergency, — it is just WAR, like every other war we have ever fought.

The "emergency" started back in 1933 the day President Roosevelt took office, and he so named our national situation,

particularly financial, as it existed in that day and during the days since.

When we declared war last year the emergency ended and the war began. This is war now and we are in war and something good and worthwhile will "emerge" from it when we win it: something like a Confederation of Nations.

Until that happy day comes "when we WIN the war" let's dispense with the fancy mental trimmings and strip for action. One wonders how ones' for-bearers managed to fight and win the Civil and Spanish-American Wars without benefit of verbal doo-dads.

"For the duration" which is supine, should be out of popular use "until we WIN the war."

## A Deserved Salute to The Automobile Dealer

(The Oakland Post-Enquirer)  
(Editorial)

More than 40,000 major automobile dealers in America were the distributors for the nation's biggest business, the business hit hardest by the outbreak of the war—and they took the heaviest blow standing up.

They CONTINUE to stand up against the storm that so suddenly broke over their heads. Like the poet Henley, their heads are bloody but unbowed.

The factories were soon converted into war industries.

But the dealers were caught with frozen stocks, and no new stocks forthcoming. They were plunged overnight from an economy of abundance into an economy of scarcity. They were called upon to take terrific losses, and stay in business.

Mr. W. E. Holler, the dynamic general sales manager for Chevrolet and a very forceful writer, has written an interesting booklet entitled: "The Automobile Dealer: Fighting Patriot of a Fighting America."

### — Automobile Dealer's Big Job

He believes the automobile dealers are entitled to a national salute for courage, good sportsmanship and essential service—and everybody who knows anything about these automobile dealers will agree with Mr. Holler.

There are 40,537 automobile dealers and more than 400,000 employees in the retail distributing agencies and authorized service shops, and Mr. Holler points out that they have done, are now doing and will continue to do a tremendous and essential job for America.

He writes: **Everyone who looks at the record will understand why: Because these men helped to create America's giant mass-production machine for this war... Because they are helping to carry our vitally important civilian transportation system through the war... And because they also will help to make sound and secure the peace which will follow the war.**

Here are some facts outlined by Mr. Holler in his valuable book:

America's automobile dealers were the spearhead for the development of the mass distribution which was the necessary complement of mass production.

In the last 41 years they have sold and delivered more than 80,000,000 new cars and trucks.

They have taken in trade, reconditioned and re-sold 125,000,000 used cars and trucks.

They have built and maintained efficient service stations in every city and town in America, and over the last 15 years have kept an average of 26,000,000 cars in daily service.

"They have," says Mr. Holler, "helped to make America the most mobile nation on earth when mobility means strength."

### — They Keep America Rolling

Now there are 32,000,000 cars and trucks in America—the vital vehicles on which America depends for most of its transportation. They must be saved and kept in service as long as the war lasts. Last year 6000 cars and 1000 trucks a day were junked—and THAT cannot go on.

Mr. Holler points out that the major responsibility for keeping America rolling on wheels is up to the automobile dealers and their efficient, trained employees.

They will be in the van of the reconstruction that will follow the war, when American industry is re-converted to peace time production, and when the mass distribution spearhead of the greatest mass production industry will play a vital role.

Mr. Holler calls these automobile dealers the "Super-Salesmen of Yesterday, the Victory Service Men of Today, and the Reconstruction Men of Tomorrow"—and millions of Americans will agree.

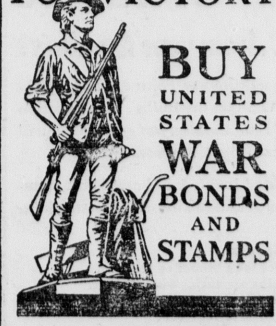

### TWO YEAR OLD DECOTO CHILD "SEES THE WORLD"

DECOTO — This community was considerably upset Monday when it was found that Bill Granger, a two year old boy had escaped from his play pen and had gone for a walk.

Two and a half hours later Milton Flores found the boy on the bank of Alameda Creek, two and a half miles away, which was quite a stroll for a two-year old.

The boy's dad, Lieutenant Harley G. Granger, training at Fort Benning, Georgia, was due home yesterday on furlough. His son was on hand to greet him.

## VETERANS GROUPS INSTALL THEIR NEW OFFICERS

LEGION POST TO  
MEET ON FOURTH  
WEDNESDAYS ONLY

At their first fall meeting held last Wednesday night in the Memorial Building at Niles, Washington Township Post of the American Legion voted to discontinue semi-monthly meetings and meet but once a month, that on the fourth Wednesday of each month, to save members' tires, until we win the war.

The Post also voted to continue its participation in the annual Armistice Day football game with Livermore High School competing with Washington Union High school. Commander Sam Scott re-appointed the same Armistice Day committee which Comrade Jack Vieux has headed for some years past.

Joint installation ceremonies were held that evening by the Women's Auxiliary and the Post. Twenty five women were present many of them distinguished visitors, as Mrs. Lucille Alves of Hayward, junior past president of the Tenth District acted as installing officer. The honorary sergeant-at-arms was Mrs. Ethel Kruse of Oakland, Tenth district president.

The following officers were installed by the Auxiliary: Ellen Mohn, president; Betty Waynflete, first vice; Rose Vieux, second vice; Theresa Swartz, secretary-treasurer; Angie Furtado, chaplain; Marie Duarte, Sergeant-at-arms; Marion Zwissig, marshal; Nell Myers, historian. Executive committee: Geneva Smith, Lena Bertolotti and Stella Benbow; Junior Past President: Irma Peterson. Gifts were exchanged by the ap-

## TWO ARE JAILED

Deputy Sheriff Henry Vervais and Ben Olson were called out recently to take into custody Thomas Loeser, 25, said to have deserted from Camp Lawton in Washington, who they turned over to military authorities. The young man's companion, Lois H. Bowen, 20 of Bremerton, Washington was sentenced to serve 30 days in county jail when she pleaded guilty to vagrancy.

Mrs. W. H. Ford is general chairman of the luncheon committee, assisted by Mrs. John Sutton. Mrs. Gladys Williamson and Mrs. J. A. McDonald will preside over the salad bowl. Mrs. William Baldwin will be hostess at the candy booth.

## What You Buy With WAR BONDS

Aside from the sixty-mile an hour Mosquito Torpedo Boats, the Sub Chasers are the speedsters of our Navy. Light and fast, they are the eyes of the Fleet on the water. They displace approximately 1,500 tons and cost about \$2,400,000 each.

We need many of these powerful, fast little boats to cope with the treacherous submarine type of naval warfare fostered by our enemies. Everybody can help pay for more Sub Chasers by putting at least ten percent of his income into War Bonds. Buy Bonds or Stamps every pay day. Buy them from your bank, your post office, or from your office or factory through the Payroll Savings Plan.
